

Lyonns County  
Nassau, Sunday -  
Oct 1863 -

Dear ally -

I arrived here on  
yesterday - as no train went to  
Houston to-day - I shall not be  
able to get off till to-morrow -  
I had a pleasant trip to this point  
full in with several agreeable per-  
sons on the route,

To-day I made a visit to Doct  
Foster of Opelousas, who with his  
mother Mrs A De Marist are  
living in this County, on a place  
belonging to Felix Lemarist, & for  
nearly his residence - who now  
resides about eight or nine on  
what is called the Bottom, near  
the Brazos River -

Mrs Ligh left her about three  
days ago - She has been on a  
visit to the Lemarist family  
She ~~has~~ spent the summer at  
Piedmont Springs - & is now en-  
route to Falls County where her  
negroes are encamped - She has

Not-with any of her suggestions - and as  
yet has refused me arrangements  
in regard to them for the next year.  
I would advise Mrs B. - you  
self - to discuss at once a paper  
of many to be com in fractions  
The grant's showing six feet from  
percent morning is such as to be  
want one in the belief that a few  
from review of our own side can  
its almost when rejection - this  
of every thing in reality ad-  
being - you had better secure  
a good supply of com from the  
- Secord - The Laurio etc are  
he has turned the hands of  
at contract to sell -

I will write you again for one  
of them, when I get my letter  
of transfer to ocean station, New  
Mary. Charge's may also  
place in one month -

I see that the Secord Secretary  
had advanced to the Board of  
they determine committee are  
cooperation except during the

horses in the plantation of the  
Mary's position - I must see that  
they can secure the large  
order of the good position, no vice  
does know been known in  
1871. Let = This programme?  
the field: must have exacted what  
them among the citizens of Mary  
I hope to find better looking on  
the position -  
with reports to Mrs B. & the same  
held. I am Mrs B's  
M.F. 115512
